Promoting Rational use of Medicines

For Medical Officers

The Medicinal Drugs Committee collaborated with the Ministry of Health (MoH) to educate medical officers on Rational Use of Medicines (RUM) with an emphasis on antibiotics. Symposia were conducted in Colombo and Ampara in the initial phase. Members of the committee were resource persons at these symposia

The Medicinal Drugs Committee and SLAAS Section A conducted a symposium on Quality Use of Medicines (QUM) for medical officers

For Pharmacists

A seminar was conducted in collaboration with the Pharmaceutical Society of Sri Lanka to educate the pharmacists on “The Role of Pharmacists in Rational Use of Medicines”. This was attended by pharmacists in both the state and private sectors.

Other activities

On an invitation made by the Ministry of Health, committee members were involved in the preparation of National Antibiotic Guidelines, Essential Medicines List and the Clinical Trials Act.

Some of the committee members have agreed to participate in the SLBC program on “Views on Health” conducted by the SLBC.

The committee has sent their observations to the relevant authorities and media in issues pertaining to medicinal drug use and regulations.

The members of the Medicinal Drugs committee participated in developing a booklet “Guidelines on the use of antimicrobial agents for common bacterial infections” in collaboration with the Ministry of Health and the College of Microbiologists. WHO will sponsor printing of the booklet.

REPORT

(Presented by Dr Kapila Jayaratne)

SLMA – ECE undertook series of activities in order to meet its objectives in the year 2013. Awareness and promotion campaigns, training workshops, media briefings, advocacy and lobbying, symposia and publishing articles were among them.

Media briefings

Printed and electronic media briefings were carried out in several occasions.

Awareness, promotion and training workshops

1. Ceylon Petroleum Storage Terminals Limited

SLMA – ECE successfully conducted two workshops for the staff working in the facility. Initial workshop held on 3rd of January 2013, targeted the heads of all the departments whereas the following workshop held on 26th August 2013, targeted an audience over 200 office based staff.

2. AES Kelanitissa power plant

Another workshop was held at AES Kelanitissa (Pvt) Ltd on 15th May 2013. The participants were mainly engineers and executive level managers.

3. National Science Foundation & Family Health Bureau

With the participation of world renowned 2 experts on the field of Ergonomics 3 workshops were carried out. They were held at National Science Foundation, Family Health Bureau and Gateway College. All the workshops were well attended.

4. Gateway College teachers

Another training workshop was conducted for Gateway College computer teachers during their annual conference held on 21st July 2013 at Cinnamon Bay Beruwala.

Advocacy and Lobbying

Several high level meetings with several ministers including the Ministry of Education Services were held with a view of involving various stakeholders in the venture of inculcating ergonomics culture in Sri Lanka. The main project of “*Healthy School Bag*” was identified as a priority.

Development of Child Helmet Standards

Road traffic injuries are one of the leading causes of death and disabilities among children in Sri Lanka. Injury data suggest that children from lower income family background are at greater risk of motor bicycle related injury as a result of lower rates of helmet use. The child helmets on the market today offer varying degrees of protection that cannot be assured the safety of the children during a motor bicycle accident.

The SLMA Expert Committee on Ergonomics has taken initiative to work on three main areas: Engineering, Enforcements & Education.

Standards on child helmets are essential aspect of engineering. Sri Lanka Standards Institution (SLSI) is the lead organization in developing standards in Sri Lanka. SLMA-ECE had a meeting on 8th February 2013 at SLSI on child helmet standards with the participation of:

- Mrs. Samantha Narangoda – Director, (Engineering Standards) - SLSI
- Mr. AS Dewage – Senior Deputy Director (National Testing Laboratory) - SLSI
- Mr. Ranga Karawita, Assistant Director (Engineering) - SLSI
- Dr. Kalyani Guruge – Consultant Paediatrician, Vice President - SLMA
- Dr. Kapila Jayaratne – Consultant Community Physician, Chairman, the SLMA – ECE
- Dr. Diana Samarakkody – Consultant Community Physician, Member of the SLMA –ECE

Inculcating Ergonomics in the Sri Lankan Settings

The Expert Committee on Ergonomics - Sri Lanka Medical Association (SLMA - ECE) organized a one day symposium on ergonomics as a pre-congress workshop of the Annual Academic Congress of the SLMA - 2013 in collaboration with National Institute of Occupational Health (NIOSH) with the support from National Science Foundation (NSF), World Health Organization (WHO), United Nations Children's Fund (UNICEF) and Mobitel Pvt Ltd.

“Stretch Break” in computer ergonomics

Stretch Break was designed by a team of health care professionals who carefully reviewed each stretch in the program. Stretches focus on parts of the body most likely to be harmed by RSIs including the neck, arms, hands, back, legs, and wrists. Also, includes eye exercises. The Kids version, contains 20 stretches. Several focus on stretching the muscles associated with Carpal Tunnel Syndrome. It contains ErgoHints, guidelines for healthier computing. SLMA – ECE started collaborating in customizing this software to suit the Sri Lankan context.

Special Issue – WORK Journal

Following the successful completion of the symposium on “*Inculcating Ergonomics in the Sri Lankan Setting*” at the SLMA Annual Congress – 2013, the authors of the prestigious international journal - WORK, published by the IOS Press agreed to publish a special issue dedicated to Sri Lanka titled “*Ergonomics and Work in Sri Lanka*”. Dr. Kapila

Jayarathne, Dr. Manjula Danansuriya and Dr. Chamaine De Silva of SLMA – ECE have been selected as Guest Editors of this issue.

Fund raising

A successful fund raising campaign was launched for parallel to the symposium on *"Inculcating Ergonomics in the Sri Lankan Setting"* at the SLMA Annual Congress – 2013. SLMA ECE received generous contributions from various interested parties to uphold the worthy efforts taken by SLMA – ECE. Below is a summary of donors;

Child Injury video

SLMA – ECE could negotiate with *SafeKids Worldwide* to help us with resource materials in prevention of child injuries in Sri Lanka. In a quick response, they have modified the original "imagine" video to suit Sri Lanka. A Sinhalese version is also under construction.

The committee organized seven workshops on research methods in 2013 which were well attended by clinicians and researchers. The areas addressed include basic statistics, designing and validating questionnaires, factor analysis, using systematic reviews, and Geographical Information Systems. Several experts in their disciplines supported these workshops as resource persons, and the committee greatly appreciates their support. Future workshops are being planned based on participant feedback. The committee screened and coordinated the external review of all research grants awarded by the SLMA, and made recommendations to award 4 Fairmed research grants, the SLMA research grant, and the CNAPT award. Grant management of these is also being coordinated by the committee. The committee also managed the judging of the free paper presentations at the SLMA annual sessions, including developing assessment criteria, coordinating with external judges, and making recommendations for awards. The committee welcomes new members, resource persons for workshops, as well as suggestions on new activities, to continue their successful work in 2014.

The meetings of the committee have not been regular due to outstation members being unable to attend on a regular basis due to their academic and clinical duties. Other members too have faced similar difficulties. Meetings were held in February, July (at Waters Edge) and September. The business of the committee was conducted through e-mail.

The following were accomplished:

1. **Guidelines for Management of Snakebite in Hospital:** The Guidelines revision was completed and 1000 copies of the text printed by courtesy of a grant from the South Asian Clinical Toxicology Research Collaboration (SACTRC). These copies are being distributed free of charge through the SLMA Office. The Electronic version has been updated and is being sold at Rs. 300/- each at the SLMA Office. Both print and CD versions were sent to all the Deans of Medical Faculties. The booklets have been distributed to hospitals where snakebite is treated through members of the snakebite committee. The text is available on the SLMA website.
2. **Snakebite Management Hotline:** Has been updated into a new, colourful format and distributed through the SLMA electronic media. The service providers remain unchanged: Prof. SAM Kularatne, Prof. Ariarane Gnanathanasan, Dr. M. K. Ragunathan, Dr. Suresh Mendis, Dr. Udaya de Silva (paediatric bites), Dr. S. Sivansuthan (bites in Jaffna).
3. **Snakebite: Prevention and First Aid:** The English text has been revised. The Sinhala and Tamil texts are now being harmonised with the revised text.
4. **Snakes, Snakebite and management: Updated publication (CMJ):** The committee is now working on this publication.

In keeping with tradition, the 126th Annual Scientific Sessions of the SLMA included a variety entertainment by doctors and their families. The show this year was termed "PANACEA" and was held on the 11th of July in the Grand Ball Room at the Waters Edge.

It was a night packed with music and laughter, and was well attended. There were young performers Nilukshi Jayasuriya and Mirash Nazeem as well as a number of veterans taking part. Dr Hirantha Ariyadasa and Dr Gnanath Dissanayaka gave a sparkling start to the show with their rendering of Country Roads, and the pace kept up by Dr Lakmal Fonseka, who dedicated his song to his mother present in the audience. Dr Duminda Vithanage added a nostalgic touch with his Flute, playing the theme from Titanic, while Dr D J Anthony sang one of his own delightful compositions accompanied by an eye catching dance by Medical Students. Dr Dilini Samarakoon and Dr Manela Joseph were both a treat to listen to. The most impressive item however was the Tabla and Veena duet by Visharada Dr Sakthilendran and Dr Kaushalya Wickramasingha. The finale of the show was the "Medely of Melodies" by President BJC Perera and the Council of the SLMA.

The show was Compeered with professional finesse by Dr Sean Amarasekera, who added his distinctive vocal performance to the show singing Gethsemane from Jesus Christ Super Star and Epiphany from Sweeney Todd. The Conference Dinner was held on the 13th of July at the Waters Edge. It was indeed a night to remember with good food, good music, and good company.

The Medical Dance 2013 is scheduled for the 7th of December to be held in the Grand Ball Room at Waters Edge, and the Social Activities Committee is making every effort to make it a grand success.

Training and Technical sessions

- The committee conducted a successful, well attended one hour seminar of issues related to alcohol and tobacco at the 2013 Annual Sessions of the SLMA, which was chaired by Prof. Narada Warnasuriya and Prof. Lalani Rajapakse.
- In July, 150 Graduates attached to Ministry of Education was trained by the committee on addressing drug and alcohol demand reduction in schools environments. They were trained in two batches, with each batch undergoing training for two days. The Ministry of Education organized the trainings and the Members of the committee were the main resource persons.
- The committee conducted a session on healthy behaviours focusing on addressing drug and alcohol use in patients, for the newly passed out medical graduates awaiting internship appointments. This two hour seminar was a part of the four-day "Good Intern Programme" conducted by the Ministry of Health and the Government Medical Officers Association. Around 600 pre-interns participated.

Policy

- The Committee participated the process of the developing a National Policy on Alcohol, which was carried out by the Ministry of Health. Three members of the committee were involved in preparing the final draft of the document.
- Members of the Committee also actively participated in the process of developing a policy on tobacco, alcohol and illicit drugs for the Ministry of Education. This process included several sessions, with the participation of a wide range of stake holders from the government and non-government sectors and religious leaders. Two members of the committee were selected to the final drafting group of eight experts.

Advocacy

- The members of the committee personally met the Editors of both Sinhala and English National Newspapers individually, and briefed them on issues related to tobacco and alcohol. This resulted in sustained support of the media for tobacco control activities during the latter part of the year. This included editorials on the subject and well as publication of several articles on tobacco control, which was provided by the members of the Committee.
- Committee Members met the leaders of the main religions and updated them on issues related to tobacco and alcohol in Sri Lanka. All of them assured of their support to activities to address harms from these substances. As result of these meetings, the four Mahanayakes issued statements supporting tobacco control, which urged the government to speedily implement display of pictorial warnings of tobacco packs. These statements received wide media attention, and appeared in the front pages of English newspaper such as the Island and Daily Mirror and in Sinhala newspapers such as Lankadeepa and Divaina. The statements also were referred to in several editorials in the Sinhala and English Newspapers and in the electronic media.

Press statements and Letter to H.E. the President

- In September, a press release by the SLMA requesting the speedy implementation of the gazette notification of pictorial warnings was released. This received wide publicity, and was published in national news papers such as the Island, Daily Mirror and the Daily News as well and Web Newspaper the Asian Tribune.
- A letter, signed by the President of SLMA was also prepared and delivered to H.E. the President, supporting tobacco control measures undertaken by the government under his leadership and requesting the expeditious implementation of pictorial warnings on cigarettes packs.
- In March, the WHO Supported the SLMA Committee to publish the joint press statement issued at the joint press conference on tobacco control with 20 other professional associations of Doctors, organized by the Committee. This statement was published in the form of an advertisement in Sunday Times and the Daily News. Those who joined us in this activity were the Sri Lanka Dental Association, Government Medical Officers Association, College of Psychiatrists, Sri Lanka College of Oncologists, Sri Lanka College of Paediatricians, Ceylon College of Physicians, College of Community Physicians, College of General Practitioners of Sri Lanka, Association of Pulmonologists of Sri Lanka, College of Psychiatrists of Sri Lanka, Sri Lanka College of Haematologists, College of Forensic Pathologists of Sri Lanka, College of Community Dentistry of Sri Lanka, College of Medical Administrators and The National Institute of Mental Health

The committee received a sponsorship of Rs.25, 000/- from Pharma associates.

The pre congress SLMA sessions on "Building Key Competencies of Field Health Staff to Promote Family Wellbeing" was held on the 4th of July at the NIHS, Kalutara. The panel of speakers were Dr. Piyanjali De Zoysa (Senior Lecturer in Clinical Psychology, Faculty of Medicine, University of Colombo) who spoke on "Techniques to Enhance the Psychosocial Wellbeing of the Family", Ms. Chrishara Paranavithana (Clinical psychologist, Visiting Lecturer, Faculty of Medical Sciences, University of Sri Jayewardenepura) who spoke on "Empowering parents to protect children", Dr. Deepika Attygalle (Health & Nutrition Specialist, UNICEF) who spoke on "Promoting parents' role in Early Childhood Care and Development" and Dr. Enoka Wickramasinghe (Registrar in Community Medicine, Faculty of Medicine, University of Colombo) who concluded with a lecture on "enhancing good parenting". The event was sponsored by the UNICEF. The proceedings of this event was also published in the August 2013 SLMA Newsletter.

A pre-congress workshop for the Annual College of Community Physicians sessions on 'Broadening Gender Attitudes to Improve the Health and Wellbeing of Women and Men' was held as a joint activity of WHC and The College of

Community Physicians on 21st of September 2013 at the New Lecture Hall of the Faculty of Medicine, Colombo. The topics covered and the resource persons were 'Attitudes of men and women in Sri Lanka towards gender-based violence and gender equality - findings of the study, CARE International by Prof. Neloufer de Mel (Professor of English, Department of English, University of Colombo), 'Influence of gender attitudes on sexual and gender based violence' by Ms. Ramani Jayasundere (Senior Technical Advisor (Law and Justice) The Asia Foundation, Sri Lanka), 'Spaces and opportunities to broaden attitudes towards gender in workplaces' by Prof. Maithree Wickremasinghe (Director, Centre for Gender Studies, University of Kelaniya), and 'Spaces and opportunities for broadening gender attitudes as healthcare professionals' by Dr. Lakshman Senanayaka (Senior Gynaecologist and Obstetrician, Consultant to UNFPA). This pre-congress workshop was chaired by Professor Dulitha Fernando, Emeritus Professor, University of Colombo and Dr. Ferdosi Rustom Mehtha, Country Representative for Sri Lanka, World Health Organization. It was sponsored by the World Health Organization. The proceedings will be summarised and will be submitted to the SLMA newsletter, shortly.

A Symposium on 'An update on Women's Health – useful tips for a Sri Lankan Practitioner' is to be held on the 29th of November 2013 at the SLMA auditorium. Dr. Shalini Sri Ranganathan (Senior Lecturer, Department of Pharmacology, Faculty of Medicine, University of Colombo) will be speaking on 'Latest in prescribing during pregnancy' and Prof. Chandrika Wijeyaratne (Prof in Reproductive Medicine, Department of Obstetrics and Gynaecology, Faculty of Medicine, University of Colombo) will be speaking on 'An update on PCOS in Sri Lankans: Its metabolic aspects'.

One of the growing concerns among the medical professionals and the SLMA is the lack of ethical practice and professionalism in healthcare settings, which manifests as many allegations of sexual harassment targeted towards the patients as well as the hospital staff. The WHC is proposing a poster campaign as a first step in creating awareness among the healthcare staff and the patients regarding issues such as patient rights to privacy, confidentiality, etc. in medical practice. This is a joint activity with the Health Education Bureau and Family Health Bureau of Ministry of Health, College of Obstetricians and Gynaecologists and the SLMA. A poster was developed by the committee and experts were called for a meeting at the SLMA. The inputs were from the experts from the GMOA, College of GP, College of Community Physicians, Family Health Bureau, Health Education Bureau and the President, SLMA were taken into account and changes were made to the poster. This was later piloted at the De Zoja Maternity Hospital for Women. The final poster was sent for printing to the World Health Organization, who are funding the campaign. 10,000 posters in Sinhala and 4,000 posters in Tamils are to be printed. This poster is to be launched at the end of the year.

The committee decided to formulate the curriculum on Gender and Health for the medical undergraduates. With many of the medical curricular undergoing review and taking up professional and personal development modules, the committee decided to convene a meeting of relevant departments and resources from modules including of Forensic Medicine (or medico-legal modules), Community Medicine (or community health modules), Obstetrics and Gynaecology, Family Medicine, Medical education and personal and professional development modules. The meeting was held with representative from the Family Health Bureau, as it coincided with the launch of an extensive training module for medical officers and public health staff. It was decided at the meeting that with the help of the Family Health Bureau's manual, a three-hour lecture handout would be developed. This would be handed over to the lecturers in Community Medicine at the Colombo, Jayewardenepura, Galle, Ragama, Peradeniya, Rajarata and Jaffna Medical Faculties for implementation as a handbook. The expert committee on Women's Health also developed a project proposal for funds for the handbook. The Committee prepared a preliminary proposal which was submitted to Family Planning Association in September 2011. The Expert Committee on Women's Health is to receive a sum of Rs. 250,000/= from the Family Planning Association to compile this handbook for the Medical Undergraduates on Gender and Health in Sri Lanka. A workshop would be held with experts in this field, (tentatively in January 2014) and once agreed upon, the handbook would be printed and distributed to all Medical Faculties for implementation.

Women's Health Committee drafted a Sinhala and a Tamil leaflet to sensitise the non-medical undergraduates on gender issues. The committee expects to publish the leaflets and upon obtaining permission from the University authorities to distribute them to new entrants of the Universities in Sri Lanka.

Chairperson represented the committee at the launch of Zonta Breast care cushion project of Zonta club II of Colombo. This breast care cushion was disseminated, by the Expert committee on Women's Health, to the needy, at the General Hospital Trincomalee.

The Expert committee on Women's Health made representation at the stakeholder meeting on Care International to lead and facilitate development of policy brief on "Women's attitudes and health impact of violence" based on their study on gender inequalities among males and females. The draft policy brief is to be circulated.

The committee also decided that according to the SLMA mandate, if a committee member is absent for 3 (three) consecutive meetings, he/she will be removed from the committee.

The following members resigned from the Expert committee on Women's Health.

1. Dr. Dinithi Fernando
2. Dr. Angela de Silva
3. Prof. Shereine Fernando

1. Board Meetings

The Editorial Board meetings are held on the second Saturday of each month. Eight meetings have been held so far in 2013. The last meeting for this year will be held in 15 December. Average attendance was 70%. A summary of the events of each meeting are sent to the council periodically.

2. Journal

Three issues of the 2013 *Journal* have been published to date: March, June and September. The December issue is in final review. 3000 copies are printed of each issue and distributed to SLMA members free of charge.

95 articles were tabled at the editorial boards of which 58 were unsuitable for publication. Of the remaining articles allocation was as follows: full papers 12, research letters 4, case reports 6, picture story 1, brief report 8, sent for specialist review 5.

In CMJ Volume 56 an author index was published. Subject index will be published in Volume 58 (December)

Past issues of the Journal can be purchased at Rs 500/= per copy. The processing fee per article remains at Rs: 1000/=.

3. Other publications

The abstract book to accompany the annual academic sessions of the SLMA was published in June.

4. Workshop

The *CMJ* held its first interactive workshop on writing an article to a health sciences journal, "SCIENTIFIC WRITING MADE EASY" on 28 Nov 2013. It was a collaborative between the *CMJ*, SLMA and INASP and will be held as a regular event twice yearly. INASP gave the *CMJ* funds equal to Rs one million for the sustenance of this, deposited as a fixed deposit with the interest used to pay the resource persons. The workshop included a preworkshop Moodle which was very popular and well received.

5. Website

The *CMJ* can be accessed online through the SLMA website. Full article access is available from 2003 onwards. The Sri Lanka Journals Online website is maintained by Mrs Sioux Cumming at the International Network for the Availability of Scientific Publications, Oxford. There are 950 online registrants of the *CMJ* who access the website.

6. CMJ office

The office can be contacted on 011 269 0212 and at office@cmj.slma.lk

7. Acknowledgements

The Editorial Board is grateful for the continued help of all SLMA staff, especially Mr Rajasingham and Ms Jayarani Tennakoon. Ms Saumya Hemasinghe is the full-time administrative secretary of the *CMJ*.

15. TSUNAMI DISASTER RELIEF PROJECT

(Report Presented by Dr Suriyakanthie Amarasekera)

Coodinator: Dr Suriyakanthie Amarasekera
SLMA/CMAAO Scholarship Fund

The CMAAO/ SLMA Joint Scholarship, administered by the Tsunami Disaster Fund is the main Social Responsibility Project of the SLMA.

This Scholarship was set up in 2006 for children who lost one or both parents in the Tsunami disaster of 2004, by investing the generous donation of US \$ 50,000/- by the Confederation of Medical Associations of Asia and Oceania (CMAAO), and is being continued successfully.

Of the 20 students who were recipients of the Scholarship in 2012, two failed to communicate with the SLMA reaffirming that they are continuing their education, in spite of repeated letters. It was assumed that they had ceased their educational activities and are therefore no longer eligible to receive the scholarship, and their payments were stopped.

There are at present 6 students who have gone on to study beyond O Levels (two following a course of Graphic Design, one the AAT course, and three taking up the A Levels in an attempt to enter University) These students receive Rs 3000/- monthly.

There are 5 students who have come up to their O Levels and receive Rs 2500/- monthly and the balance 7 receive Rs 2000/- monthly. The total number of scholarship recipients now stands at 18. It is intended to give each recipient an extra allowance in December this year as well to facilitate purchase of books uniforms, shoes etc. All these payments have been made using the monthly interest leaving the capital intact.

16. FORUM FOR ETHICS COMMITTEES (FERCSL)

(Report presented by Dr Rasika Perera)

The Annual General Meeting of the FERCSL was held on 1st March 2011 at the SLMA Auditorium. The Management Committee of FERCSL is formed of 2 nominated members from each constituent ERC of FERCSL. The following office bearers were elected at the first management committee meeting of FERCSL:

Chairperson: Prof. Anoja Fernando (according to constitution)
Secretary: Dr. P. P. Rasika Perera
Treasurer: Dr. Chamila Abeywickrama

Activities carried out by Management Committee of FERCSL

1. Development of Standard Operating procedures (SOPs)

Prof. Anoja Fernando conducted a full day workshop on Reviewing ERC applications for members of individual ERC's 11th September 2011 at the SLMA Auditorium for the benefit of members of FERCSL.

2. Clinical trials draft act

A sub committee set up by the FERCSL chaired by Prof. Rohini Fernandopulle looked into the final draft of the Clinical Trials Act and would submit their comments.

Proposed activities for 2014

22. NIROGI LANKA PROJECT

NIROGI Paadha

Concept

NIROGI Paadha is the 2nd component of NIROGI Lanka project. It is envisaged to be the important initial step in developing a nationally relevant model of quality diabetic foot care in the entire island.

Foot care Guideline

Stake holder meetings culminated in the development of the foot care guideline, proper diabetic foot wear, foot care clinics and team management. This concept will be piloted in ten centers through the Ministry of Health (Anuradhapura, Jaffna, Rathnapura, Kurunagala, Galle, Matara, Kandy, Colombo-North, Colombo-South, Colombo-Central). NIROGI Paadha will provide a foot care package which includes a Doppler to each piloting center.

The 1st edition of Healthcare providers' guideline for care of the foot was launched on 9th of July in the presence of Director General Health Services Ministry of Health. A system was developed for Risk Stratification with the introduction of red/green stickers.

Training of trainers (TOT)

TOT sessions were held on 6th September Kandy (76 medical professionals), Jaffna on 11th of October (99 health professionals), Anuradhapura 23rd of October (107 health professionals), Batticaloa 7th of November (259 medical professionals) and Matara on 4th of December in collaboration with SLMA sessions, Kandy society of Medicine and Surgeons of Matara.

Diabetic foot wear

For provision of appropriate footwear for diabetics island wide, a Memorandum of Understanding was signed on 3rd of December 2013 at SLMA board room by Dr B.J.C. Perera (President SLMA), Dr Sam Rajapaksa (Chairperson D.Samson and Sons (private) limited) in the presence of Mr Nandadasa Rajapaksa, Dr Samanmaali Sumanasena (Secretary SLMA), Mr Chandrasiri Sumanasekara (Business Development Manager), Prof Chandrika Wijeyaratne (Chairperson, NIROGI Lanka Project).

Training of PnO officers/ Senior workshop technicians/ DSI workshop technicians

10 health sector officers, workshop technicians and 2 workshop technicians from DSI group will be provided with training of foot wear development at centers of excellence in India through established WDF projects (Christian Medical College Vellore and Jain institute Bangalore).

Foot care DVD

A Foot care DVD was produced. This IEC material will be provided to DSI and to the health sector.

Public education through Health promotion

Public education through health promotion was initiated by educating the trainers of NIROGI Diviya on life style modifications of diabetic foot patients. They had health promotions & public educations at Kolonnawa, Gothatuwa, etc.

NIROGI Diviya

Under the NIROGI Lanka project, NIROGI Diviya component has been undertaken with the intention of empowering communities to prevent type II diabetes and cardiovascular diseases (CVD). It has followed a setting based health promotional approach that emphasizes on community ownership at each and every step of the process for instance planning, implementation, monitoring and evaluation.

A memorandum of understanding (MOU) was signed with the service provider to develop the Health Information System (HIS) of the NIROGI Lanka project in collaboration with the Department of Community Medicine, Faculty of Medicine, University of Colombo.

The project acknowledges the importance of empowering employees in taking responsibility for their own health through productivity enhancement concept and thereby, ensuring a lifetime of good mental and physical health plus of their family and community. Therefore new work place settings have been identified and the Health Promotion process has been successfully established in those areas E.g. Bank of Ceylon, MAGA Engineering, Inland Revenue Department, College House of the University of Colombo and Survey Department of Sri Lanka.

The project acknowledges the importance of empowering school children for their own good by ensuring a lifetime of good mental and physical health plus of their family and community. Therefore health promotion process also has started the school settings E.g. Visakha Vidyalaya, Yasodara Balika Vidyalaya, Good Shephard Convent, Lumbini Vidyalaya etc.

Considering the barriers in obtaining school time for conducting the programme, a new strategy has been identified to establish HP activities in school settings after school hours via Scouts, Cubs, Girl guides and Little friends. They will act as HP messengers for their school to get the involvement of other students as well as teachers.

Sustainability of already established community settings of the last NIROGI Lanka project has been strengthened by tailoring of the trainer visits to these sites. Most settings are functioning on their own.

In commemoration of World Diabetes Day 2013 Health Promotion Programs were held on 16th of November 2013 in Kotikawatta Sanasa Bank and 23rd of November 2013 in Seelawararama temple, Maadiwela and those were entirely organised by the active community members called "Health Promotion Facilitators". As part of the programme there were poster and speech competitions, exhibition stalls, yoga and exercise sessions, sporting and entertainment events etc.

A guest lecture was done by Prof. Chandrika Wijeyaratne for the staff of HeliPage Sri Lanka regarding Non Communicable Diseases and Healthy Life Style.

NIROGI Lanka has participated in mini exhibition themed 'Healthy Life Style' organised by National Science Foundation of Sri Lanka on 25th of November 2013.

NIROGI Maãtha

NIROGI Maãtha being the component 1 of NIROGI Lanka Project is committed to improving the quality of maternal diabetic care in Sri Lanka. It further aims at empowering communities to be responsible for the prevention of Diabetes from foetal life and CVD in pregnancy.

Policy and Implementation

Meetings were held DGHS to discuss the policy and implementation on how best to incorporate the Consensus guideline on Diabetes in pregnancy into the health care system by training the field staff and the hospital based staff in the current health care system. The training of field staff on screening and management of Diabetes during pregnancy developed after discussions with the Family Health Bureau.

Guideline and IEC

Several Meetings were held with Family Health Bureau, VOG and Education experts to finalize the consensus guideline and the IEC material diabetes in pregnancy. College of Physicians, Endocrine Society Sri Lanka, College of Community physicians and College of General Practitioners have appointed representative Consultants from each district to coordinate with NIROGI Maãtha. Family Health Bureau has taken the initiative to formulate a National Guideline for screening, diagnosis and management of diabetes in pregnant women.

Pre congress work shop

Pre congress workshop of NIROGI Maãtha and NIROGI Paadha was held on the 9th July 2013 at Water's edge, where the Consensus Guideline for Diabetes in Pregnancy was officially launched. This event was graced by highly esteemed Medical Professionals from all over Sri Lanka with representation from all professional organizations, the Ministry of Health, Family Health Bureau, Health Education Bureau, WHO, respective colleges, Provincial and Regional Directors, MO NCD, MO MCH, MOH, Administrative staff from Hospitals. It was based on building effective teams in diabetes care in Sri Lanka with an evidence based approach.

Centre of Excellence

De Soysa Maternity Hospital for Women Clinic was fully refurbished, acts as a Centre of Excellence for diabetes mothers and their offspring. It also maintains a database for the 6 months follow up of mother baby pairs. This NIROGI Maãtha Centre was formally inaugurated by the First Lady Madam Shiranthi Wickramasinghe Rajapaksha on the 9th December 2013.

World Diabetes Day 2013

MO NCDs and MO PH were invited to the Health Education Bureau on the 28th of October, where the guest speaker Dr. Sepalika Jayamaha spoke on Self-Management of Chronic Diseases. And Material Such as posters leaflets was provided and was asked to conduct programmes for the World Diabetes Day 2013. DENO day was held on the 1st of November at the SLMA auditorium, where they were asked to do programmes and events for the World diabetes day 2013 and the raw materials were provided. Participated in the World Diabetes Day walk- Hambantota on the 14th of November organized by the DRU and Tharunyata Hetak.
